

Aiming for Zero Accidents! AEC's Traffic Safety Initiatives

Certificate of Appreciation from the Ginowan Police Station

AEC has received a certificate of appreciation from the Ginowan Police Station in recognition of our efforts to achieve zero accidents. This award is a result of the dedication and commitment of each and every AEC employee.

As of February 2025, AEC owns approximately 390 company vehicles at our Okinawa headquarters alone. Safe driving by our employees is essential for daily operations. Here are some of the traffic safety initiatives AEC is implementing.

▲Participants listen attentively.

▲Predicting potential dangers is key to preventing accidents.

◆Traffic Safety Training for Employees

AEC aims to create a workplace with zero accidents by ensuring that every employee practices safe driving. To achieve this, we hold traffic safety training sessions twice a month in both Japanese and English.

We invite officers from the Ginowan Police Station and members of the Ginowan District Traffic Safety Association as guest lecturers. Through real-life discussions and Q&A sessions, we continuously update our knowledge and raise awareness. Additionally, we use simulators for hazard prediction training.

By the end of 2025, we plan for all employees to complete traffic safety training.

◆ Keeping awareness of traffic safety is crucial.

AEC remains committed to working alongside the community to achieve zero accidents.
