

OUTSOURCING Inc. to Become BREXA Holdings Inc.

We are pleased to announce that our parent company, Outsourcing Inc. (Head Office: Chiyoda-ku, Tokyo; Kenji Kamiyama, Representative Director, Chairman and CEO; Takayuki Yamazaki, Representative Director, President and COO), will transition to a holding company structure effective July 1, 2025, establishing BREXA Holdings Inc. as a pure holding company.

The new name, BREXA, is a coined term that blends the words “Break,” “Ability,” “Expand,” and “EXA” (10 to the 18th power). It reflects the group’s purpose:

“Eliminating boundaries in all forms of work to unlock greater possibilities for more people.”

This name change represents the group’s commitment to enhancing its brand value and establishing a stronger management foundation. As a proud member of the group, American Engineering Corporation (AEC) fully supports this new vision and will continue to pursue excellence in our services while delivering greater value to our stakeholders.

Please note that this change will not affect AEC’s name, address, or business operations.

We appreciate your continued support and look forward to our ongoing partnership.
